CONTINUING MEDICAL EDUCATION CALENDAR OF UPCOMING COURSES

March 9-11, 2017
Pediatric Imaging: March 9-11, 2017
Encore at Wynn Las Vegas
(or Better Than!) the Experts

October 12-14, 2017
Mauna Lani Bay Hotel & Bungalows
(or Better Than!) the Experts

July 17-20, 2017
Wyndham New Yorker, NYC
Mini-Fellowship Workshop

April 26-28, 2017
Hyatt Regency Scottsdale, AZ
A Comprehensive Review & Innovations

COURSE OBJECTIVES

By the end of this course, participants should be able to:
- Analyze the histopathologic basis for benign and malignant breast lesions.
- Analyze more robust and simplified methods of evaluating asymmetries commonly seen at screening and diagnostic settings.
- Assess criteria for imaging diagnoses of benign, probably benign, and suspicious imaging findings on mammography, ultrasound, MRI.
- Assess criteria for imaging diagnoses and need for tissue diagnosis of identified breast lesions.
- Determine suitability for nonpalpable lesions subject to imaging surveillance as opposed to biopsy.
- Analyze applications, techniques, and pitfalls of stereotactic, ultrasound, and MRI-guided biopsy.
- Evaluate the basis and evidence for recommending surgical excision of “high-risk” lesions determined by percutaneous biopsy.
- Analyze current issues involved in breast density evaluation including risk and supplementary screening indications.
- Evaluate efficacy of supplementary screening and advanced screening techniques including whole breast ultrasound, tomosynthesis, MRI, and nuclear medicine imaging of the breast.
- Evaluate evidence-based approaches to MRI lesion evaluation, and determine efficacy of different indications for use of breast MRI.
- Determine medical legal implications of different approaches to clinical breast imaging and communications and develop strategies toward risk reduction.

TARGET AUDIENCE
- General radiologists and trainees interested in breast imaging
- Radiology residents and fellows in training
- Radiology technologists, nurses and radiology physician assistants
- Breast surgeons
- Allied health care professionals who desire to have an update on the state of current imaging as an aid to patient management for diseases of the breast.

COURSE DESCRIPTION

This course provides an integrated full discussion aimed at comprehending the basis and applications of breast imaging in five distinct sessions, using a case-based approach supported by evidence-based literature review.

Session 1 will take the attendee through the histopathologic basis for benign and malignant breast disease with imaging correlates. Conventional topics with simplified and novel strategies are presented to both review and advance the practice of mammography and ultrasound.

Session 2 focuses on imaging diagnoses for which surveillance may be reasonable and will emphasize techniques and analytic parameters regarding intervention and tissue diagnosis.

Session 3 will address the critical issues of breast density risk assessment as well as perspectives on supplementary screening such as whole breast ultrasound and tomosynthesis.

Session 4 explores in depth both current and evolving concepts and strategies in MRI interpretation with review of literature and case based presentation.

Session 5 explores the issues of medical legal accountability in interpretation and communication as well as providing strategies to avoid liability.

Physician Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of Postgraduate Institute for Medicine and CME Science. The Postgraduate Institute for Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of Postgraduate Institute for Medicine and CME Science. The Postgraduate Institute for Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Earn SAM Credit

This course has been qualified by the American Board of Radiology for 8 credits in meeting the criteria for self-assessment toward the purpose of fulfilling requirements in the ABR Maintenance of Certification Program. SAM credits are required for radiologists certified since 2002.

Technologists:

This course has been approved for up to 17.0 ACR Category A CE credits for those technologists attending the entire course.

PHYSICIAN ACCREDITATION

The Postgraduate Institute for Medicine designates this live activity for a maximum of 8.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

October 12-14, 2017 • Encore at Wynn Las Vegas

Director: R. James Brenner, MD, JD, FACR, FCLM

State-of-the-art literature review with common sense, practical strategies that surpass classic teachings. Anyone in either academic or private practice should be sure to attend this course at least once.

**FACULTY**

R. James Brenner, MD, JD, FACR, FCLM  
Professor of Radiology, University of California, San Francisco

**ABOUT DR. BRENNER**

Dr. Brenner is an internationally recognized authority on all aspects of breast imaging, having lectured extensively around the world. A past President of the Society of Breast Imaging, he is the author of more than 200 published articles and texts, and a consultant to industry and government on emerging technologies. Dr. Brenner brings his 36 years of both academic and private practice experience to a unique conference that integrates all subjects into one cohesive presentation. The discussions avoid the duplications and gaps that result in conferences with multiple speakers. State of the art literature reviews supplement case driven teaching in a format that is as intense as it is entertaining and enlightening.

**Tuition and Registration**

4 WAYS TO REGISTER

1. Register and pay online and receive instant confirmation at [www.AdvancedBreastImaging.com](http://www.AdvancedBreastImaging.com)
2. Call us toll free at 1-855-383-7116 or direct at (650) 440-4424
3. Fax this form to (650) 440-4424 or direct at (702) 770-7113
4. You may also complete, photocopy and mail this registration form to: CME Science, 3790 El Camino Real, Suite 2029, Palo Alto, CA, 94306

**LIMITED REGISTRATION**

For this unique exclusive instruction by Dr. R. James Brenner (please check box):

- Practicing Physician/Industry - $1,950.00/person
- Military/Retired/Scientist/VA - $1,095.00/person
- Resident/Fellow/Technologist/PA/Nurse - $795.00/person

**BEST HOTEL IN LAS VEGAS AT THE BEST NEGOTIATED RATE**

A special rate of $229.00 per night (Tuesday-Thursday) and $269.00 per night (Friday & Saturday nights) per room per night for a Resort Suite has been reserved for our conference participants. This rate is for single or double occupancy and is subject to tax. To receive this special rate, please make your reservation no later than September 11, 2017. Rooms at this special rate have been reserved for attendees on a first-come, first-served basis and may sell out before the cut-off date. Please ask reservations for availability and rates on suites.

Don’t be disappointed by waiting too long; reserve your room now at: [http://resweb.passkey.com/go/breastoctober2017](http://resweb.passkey.com/go/breastoctober2017) or by contacting Encore Room Reservations Department. Phone: 1-866-770-7555 or (702) 770-7000, or Fax: (702) 770-1571. Please identify yourself as a participant of the CME Science Breast Imaging conference, group code 6BST1017.

For more information on the Encore at Wynn Las Vegas Resort, please visit their website at [www.wynnlasvegas.com](http://www.wynnlasvegas.com) or call (702) 770-7000, toll free 1-888-320-7123. Travel information: Visit [www.AdvancedBreastImaging.com](http://www.AdvancedBreastImaging.com) for destination information and travel discounts.
